

The Construction of Legacy: How to Leave Right

Legacy is not something that happens passively; it is the result of a lifetime of mission accomplishment, requiring a man to first get right, live right, and lead right to create a lasting "Advantage" for his community.

The Anatomy of Influence

Impact Over Intention

Legacy is defined by intentional influence and results, not just having good thoughts.

The "Mascot" Trap

Avoid performing leadership for appearance; true leaders focus on creating actual movement.

Advantage vs. Effort

Measure success by the superior circumstances created for others, not just hours worked.

Distinguishing between superficial leadership and virtuous legacy building.

	The Mascot	The Virtuous Leader
Objective	To seem like a leader	To create movement
Response	Reacts emotionally	Engages deliberately
Result	Quickly forgotten	Continued Mission
